HOW IT WORKS

1. You provide your patient list — one CSV export from your booking system.
2. Mohamed builds and configures everything. You don't touch any technical settings.
3. Campaigns go live. Patients receive emails and SMS automatically.
4. You receive replies from interested patients directly in your inbox.
5. Monthly results reports show you exactly what was recovered.

30-Day Satisfaction Guarantee

If you're not satisfied with the results within the first 30 days, the second half of your payment is fully refunded — no questions asked.
